

DEDICATTED ANNOUNCES PARTICIPATION IN WEB SUMMIT 2025

Toronto, Canada – [date] – Dedicatted, an AWS Consulting Partner, today announced its participation in Web Summit 2025, where the company will showcase its cutting-edge consulting services in Generative AI and Agentic AI technologies.

Canada's only AWS Partner with both GenAI and MSP expertise drives Enterprise innovation

Dedicatted has achieved a remarkable distinction as the only AWS partner among 185 companies headquartered in Canada to hold both GenAI competency and official AWS Managed Service Provider (MSP) Program status. Based in Toronto with a nationwide footprint, the company supports Canadian businesses in their transformation and innovation efforts.

"Our unique position as Canada's only end-to-end AWS partner with dual GenAI and MSP expertise allows us to support organizations through every phase of their AI journey," said Denys Yermakov, CEO at Dedicatted. "This achievement validates our approach to designing, building, supporting, and continuously improving services for our clients. We're excited to bring our Canadian perspective and technical expertise to the global stage at Web Summit 2025."

Pioneering the future of Agentic AI for business transformation

Dedicatted is committed to advancing the practical applications of Agentic AI technology, focusing on how autonomous AI systems can revolutionize business processes across industries. At Web Summit 2025, the company will discuss opportunities in the evolving AI landscape and share insights on how businesses can prepare for these transformations.

Dedicatted invites all attendees to visit booth E364 to meet the team and explore how we can accelerate your business.

Meet with the Dedicatted team at Collision and unlock a free 60-minute strategy session with our AI experts.

This session will focus on how Generative AI and Agentic AI can address your unique operational challenges and accelerate innovation.

Attendees will also have the opportunity to collaborate with Dedicatted on a proof-of-concept initiative, majority-sponsored by AWS.

About Dedicatted

Dedicatted provides consulting and engineering services focused on Data, Generative AI, Cloud and DevOps. Our team of software architects and engineers— AWS, Azure, and GCP certified— leverages deep technical know-how to design and build enterprise-grade solutions.
