

## **Byscuit.com Announces Official Presence at Web Summit 2025 in Vancouver**

Byscuit.com, Canada's first 100% Canadian Consent Management Platform (CMP), will proudly showcase its solution at Web Summit 2025 in Vancouver with a dedicated booth. This event offers the perfect opportunity to highlight the platform's numerous advantages, including easy installation, user-friendly interface, complete compliance with the Canadian TCF framework by IAB Canada, international data protection standards, and SEO optimization.

Guy Michon, CEO of Byscuit.com, says: “We are thrilled to demonstrate the full capabilities of our platform to Canadian businesses, innovative web agencies, international organizations, and all entities committed to ethical data management. Our mission is to provide an easy-to-deploy, intuitive solution that is fully compliant not only in Canada but globally. Many organizations have already adopted our service, and we look forward to showcasing its benefits to an even wider audience.”

As Canada's leading CMP, Byscuit.com is recognized for its straightforward implementation, intuitive user interface, robust SEO optimization, and unwavering commitment to data privacy in alignment with both Canadian and international regulations.
