

SUPERQ QUANTUM TO LAUNCH BREAKTHROUGH QUANTUM PLATFORM AT WEB SUMMIT VANCOUVER

Dr. Muhammad Khan to Announce Super's Early Access Program During "The ChatGPT of Quantum Computing" Masterclass

Vancouver, British Columbia – May 28, 2025 – [SuperQ Quantum](#) (the "Company") is pleased to announce that it will launch its highly anticipated public beta access to the Super Platform ("Super") at Web Summit Vancouver 2025. Dr. Muhammad Khan, CEO and Board Chair designate of the Company following completion of the Super Acquisition, will unveil the early access program during his masterclass "Super: The ChatGPT of Quantum Computing" on May 30th at 1:30 PM PST.

Why Quantum Today

December 9, 2024

Google Willow Chip

Major breakthrough in quantum error correction reduces error rate exponentially as more qubits are used.

February 19, 2025

Microsoft Majorana 1

First to use topological qubits made of a new state of matter allowing millions of qubits on a single chip in future.

March 12, 2025

D-Wave Supremacy

Paper published in top journal Science to show that Advantage 2 quantum annealer outperforms classical supercomputers.

May 30, 2025

The ChatGPT Moment

AI became mainstream only after ChatGPT made it accessible to every business and individual. Super does that for quantum computing.

The last six months have seen key advances in practical quantum computing and Super is one of them. It can act as a gateway to benefit from the other advances.

Announced at Web Summit Vancouver: Super's Public Beta Launch

At the masterclass, Dr. Khan will announce the immediate availability of Super's public beta to the first cohort of users from the platform's oversubscribed waitlist. This marks a historic moment as Super becomes the first natural-language quantum and supercomputing platform available for public access, democratizing quantum computing for businesses, researchers, and innovators worldwide.

The beta launch represents the culmination of extensive developments and productization by the SuperQ team and positions the company at the forefront of quantum computing's mainstream adoption. Following the initial release on May 30th, additional invites will be distributed to businesses and individuals on the waitlist throughout June and July 2025.

Breaking the Quantum Computing Accessibility Barrier

Super's public beta eliminates the traditional barriers that have limited quantum computing to specialized researchers and large corporations. The platform's ChatGPT-like interface enables users to describe complex optimization problems in plain English and receive real-time solutions powered by quantum annealing, gate-based quantum computing, and classical supercomputing.

"May 30th marks quantum computing's ChatGPT moment," said Dr. Khan. "Just as ChatGPT democratized AI for millions of users, Super's public beta will put quantum computing power into the hands of every business and researcher. We're not just launching a platform – we're launching a quantum revolution."

Unprecedented Demand Validates Market Readiness

The Super platform has generated extraordinary interest from the global technology community, with the waitlist becoming oversubscribed within weeks of opening. Early access requests have come from large enterprises, leading universities, government agencies, and innovative startups across industries including logistics, pharmaceuticals, deep tech, and manufacturing.

Beta users will gain access to Super's comprehensive suite of quantum-powered solutions:

- Supply chain and logistics optimization delivering cost reductions
- AI model enhancement and hyperparameter tuning for breakthrough performance
- Advanced materials science and drug discovery acceleration
- Financial portfolio optimization and risk modeling
- Post-quantum cybersecurity protocol development and implementation (coming soon)

Strategic Timing Capitalizes on Quantum Computing Momentum

The public beta launch comes at a pivotal moment for quantum computing, following major breakthroughs from Google's Willow chip, Microsoft's Majorana 1 topological qubits, and D-Wave's published supremacy results. SuperQ's Super platform provides the critical missing piece: intuitive accessibility that transforms quantum computing from a specialized research tool into a practical business solution.

Exclusive Web Summit Vancouver Preview

Web Summit Vancouver attendees will witness live demonstrations of Super's platform solving real-world challenges in real-time. The masterclass will showcase how Super's natural-language

interface transforms complex quantum computing tasks into simple conversational interactions, enabling immediate business value without requiring specialized quantum expertise.

About Dr. Muhammad Khan

A Silicon Valley veteran and Cambridge alumnus, Dr. Khan has 18+ years bridging cutting-edge science and industry. He has founded, scaled, raised for and successfully exited deep tech companies in Canada and the US while building partnerships with technology leaders like NVIDIA, Google, D-Wave and DataStax. A frequent speaker at LEAP, Web Summit, and IDC CIO Summit, Dr. Khan's vision centers on bridging the gap between lab and market.

About the Super Acquisition

On March 20, 2025, Atco Mining Inc. (CSE:ATCM; US: ATMGF; Frankfurt: QP9) entered into an asset purchase agreement to acquire Super in exchange for 100,000,000 common shares of the Company, at which time the Company would continue as a technology issuer with a focus on quantum computing. At the closing of the Super Acquisition, the Company has agreed to change its corporate name (the **"Name Change"**) from "Atco Mining Inc." to "SuperQ Quantum Computing Inc.", make certain board and management changes (as described below) and, subject to the approval of the CSE, commence trading on the CSE under the trading symbol "QBTQ". Upon the closing of the Super Acquisition, the Company will carry on the business related to Super. The Super Acquisition is expected to constitute a "fundamental change" pursuant to Policy 8 - *Fundamental Changes and Changes of Business* of the CSE.

Completion of the Super Acquisition is subject to the satisfaction of a number of customary conditions, including, but not limited to: (i) receipt of all required approvals and consents relating to the Super Acquisition, including without limitation, (A) acceptance by the Exchange and receipt of other applicable regulatory approvals, (ii) completion of the Name Change; (iii) the board of directors being reconstituted, such that it will consist of five directors, being Dr. Muhammad Khan (Chair), Krishna Ganesh, Manoj Joseph, Dr. Shahadat Hossain and Neil McCallum, along with management changes, including Dr. Muhammad Khan joining as CEO of the Company. See the Company's March 21, 2025 press release for more information.

Forward-Looking Statements

This press release contains forward-looking information within the meaning of Canadian securities legislation. Forward-looking information generally refers to information about an issuer's business, capital, or operations that is prospective in nature. Any statements that are contained in this press release that are not statements of historical fact may be deemed to be forward-looking information. Forward-looking information is often identified by terms such as

“may”, “should”, “anticipate”, “would”, “will”, “estimates”, “believes”, “intends” “expects” and similar expressions which are intended to identify forward-looking information. More particularly and without limitation, this press release contains forward-looking information concerning (a) the Super Acquisition, (b) the consolidation paid, (c) the Name Change (including its timing) (d) the expected composition of the board and management of directors of the Company following the completion of the Super Acquisition, (e) the completion and timing of board, securityholder and regulatory approvals, including the application to and approval by the CSE in respect of the Super Acquisition, (f) the ability of the Company and vendor of Super to meet the conditions of the Super Acquisition and the timing for completing the Super Acquisition, (g) the timing for meeting the terms and conditions of the definitive agreement for the Super Acquisition, (h) the preparation and delivery to securityholders of a listing statement and the timing associated with its preparation and delivery to securityholders, (i) information surrounding the business and operations related to Super; and (j) trading in the Company’s common shares and when such trading will resume, if at all.

The Company cautions that all forward-looking information is inherently uncertain, and that actual performance may be affected by a number of material factors, assumptions and expectations, many of which are beyond the control of the Company and the vendor of Super, including expectations and assumptions concerning the Company, the vendor of Super and Super, the Name Change, the Super Acquisition, the timely receipt of all required approvals (as applicable), including the acceptance of the CSE, the satisfaction of other closing conditions in accordance with the terms of the definitive agreement for the Super Acquisition, as well as other risks, uncertainties, and assumptions, including but not limited to assumptions regarding prevailing market conditions and general business, economic, competitive, political and social uncertainties to develop the forward-looking information in this press release. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. There can be no assurance that the Super Acquisition will be completed in its entirety or at all. Investors are cautioned that any information released or received with respect to, among other matters disclosed in this press release, the Name Change, and/or the Super Acquisition may not be accurate or complete and should not be relied upon. Such forward-looking information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated. Forward-looking information contained in this press release is expressly qualified by this cautionary statement.

The forward-looking information contained in this press release are made as of the date of this press release, and the Company does not undertake any obligation to update publicly or to revise any of the included forward-looking information, whether as a result of new information, future events or otherwise, except as expressly required by applicable securities laws.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this news release. The Canadian Securities Exchange has not in any way passed upon the merits of the proposed transaction and has neither approved nor disapproved the contents of this news release.
